

# Vision - Objectives

*“Education breeds confidence  
Confidence breeds hope  
Hope breeds peace”*

-Confucius

Our vision is to educate the children so that their potential is recognized and they blossom into diligent and responsible citizens who are not just only valuable resources for our country but also good Samaritans for our society.

# Who are we?

Zazba is a registered trust which works as a catalyst in bringing consequential change in the lives of the underprivileged children and youth with a holistic perspective of development. We are a group of six women who had the ‘Zazba’ to volunteer in enriching our society's underprivileged children with an aim to deploy the best possible education and relevant methodology in shaping a better future for them. With that in mind we reached Gorbhanga and started our journey.

# Our Story (Motivation)

We began this noble voyage, with donation of books, bags, complete uniforms, stationeries, toys to children in January 2020. Noticing the dilapidated condition of the school building and observing the fierce zeal and quest amongst the parents and children to study, we took it as our own moral responsibility to help steer their future in the right direction. We started with repairing the building and paying monthly salary to a teacher from the same village. During the subsequent pandemic, we continued with the school and saw the school grow from 7 children to 42 children. We segregated them in classes and gave the school an organizational structure with proper documentation of each and every child. Now, we have two teachers who are managing the classes from class I till class V.

# Zazba

Flight of Hope

## Our Commitment (Mission)

- We are passionate with a zeal to help children with no access to formal education so as to enhance their chances of a dignified life. We intent to instill self-esteem and confidence in the children;
- To give them a fair chance to realize their potential and contribute in the growth and development of the society and country;
- To sensitize privileged children, youth and citizens in general to promote Civic Driven Change in order to make them partners in this mission.

## Thus far

- From January 2020 with a handful of 15 spirited young minds in a small dilapidated shed, with no teacher, there now stands a proud school building of mortar and bricks, with two full time teachers and an encouraging student population of 44, in a small hamlet of around 30 families;

- All this done while traversing 20 Km inaccessible terrain, with the dusty track, frequently washed away by heavy rains;
- We now have students up to class 5 with uniforms and school bags, with the spirit and determination to study and go ahead in life;

## What Next

Students who pass out class 5 from the school, will be helped to continue their education in the govt. school few kms downhill, by providing them with bicycles to travel and fee accommodation near the school premises.

## Project Unnati

Of the children who wish to continue the education after passing class 8 from the govt. school, we will sponsor them for higher studies with jubilant scholarships and free accommodation in a school where they can enroll for SEBA Board Examination.

## Project Atma Vishwas

We intend to provide the students with bicycles so that they can commute easily and study down the hill to Lokhra.

## How you can help

- Step in, lend a hand and become a Volunteer
- Work with as an intern at various capacities and use your skills for the disadvantaged ones.
- Project Unnati - Sponsor a child's dream of education.
- Project Atma Vishwas - Donate a bicycle for the easy commute of children.
- Contribute towards infrastructure building in cash or kind, clothes, stationaries, shoes etc. for the needy children.
- Promote us on various social media platforms
